ABOUT ME

Dynamic app developer with a passion for crafting seamless mobile experiences. Proficient in Java, Kotlin, and cross-platform frameworks like Flutter. Adept at UI/UX design and collaborative Agile development. Strong in API integration, testing, and optimization. Committed to staying current with industry trends and delivering high-quality, secure code. Ready to contribute expertise to innovative app projects.

EXPERIENCE

Independent App Developer at emoneffect

January 2021 - Present

- Launched a successful app on the Google Play Store.
- Currently spearheading an independent project, leveraging expertise in [Java, Kotlin and Flutter].
- Responsible for end-to-end development, UI/UX design, and continuous improvement of the app.
- Implemented App Store Optimization (ASO) strategies, leading to a significant increase in app visibility and organic downloads.
- Conducted thorough keyword research, optimized metadata, and utilized analytics to refine the app's discoverability and conversion rates.
